

Public Works Permits

DATASET INFORMATION WORKSHEET

DESCRIPTION

The dataset contains information on permits that were issued by the Right of Way Management Division. The dataset contains open permits including: right of way excavations and installations, residential and commercial driveway entrances, general temporary parking, storage, and dumpsters, hauling oversize and cranes, and lane, street, and sidewalk closures. The information is obtained from web-hosted site, PermitCity. The dataset will provide information on issue, start and end dates, applicant, work performed for, type and kind of permit, inspector, contact number, and XY coordinates.

PURPOSE

The purpose of this data is to allow the public to view the right of way permits that have been issued
